

Specialist Suppliers of Equipment & Materials to Artist Printmakers

Catalogue 2017

Winter

Intaglio printmaker
9 Playhouse Court, 62 Southwark Bridge Road, London SE1 0AT
Tel: 020 7928 2633 **Fax Not Available**
www.intaglioprintmaker.com

How to find us

**9 Playhouse Court, 62 Southwark Bridge Road. London, SE1 0AT.
Tel: 020 7928 2633 Email: info@intaglioprintmaker.com**

Opening hours:

Monday - Friday 10.00am to 6.00pm
Saturday 11.00am to 4.00pm

We are opposite a petrol station, down a small alleyway, first door on the right

Parking:

There are limited street side parking spaces available in Union Street. Car parks off Union Street and Southwark Street. Road side on Saturday - check authorization signs. Please note we are within the congestion zone

By Underground:

Nearest tube is Borough - Northern Line
Other tubes Southwark, London Bridge, Elephant and Castle, Waterloo.

By Train:

Main line stations, London Bridge and Cannon Street.

By Bus:

344 - Southwark Bridge Road
21,35,40,133,363 All to Borough tube.

Terms of trade & ordering information

Official orders from account customers must be accompanied by an appropriate order number. Payment within 30 days from receipt of invoice, all goods remain the property of supplier until full payment is received.

Orders for non account customers can be made on the internet, by post or telephone. Goods ordered are invoiced to include delivery and VAT; Payment must be made prior to the dispatch of the goods. Proforma invoices can be sent on request and payment can be made by credit/debit cards or by bacs. Please note that we no longer accept cheques.

We endeavour to despatch orders in 7 working days plus delivery time of up to 3 days. If you are planning to purchase materials for workshops please allow for this as it is not always possible to respond to urgent requests.

VAT at the prevailing rate, currently 20%, is applicable to all goods except books. The prices quoted in this catalogue are **exclusive** of VAT.

Delivery charges include postage and packaging and insurance. Charges are based upon the weight and volume of the order. Parcels weighing above 1kg are sent by 48hr parcellforce, the current charge is £6.99 plus VAT per parcel for mainland uk, other areas vary. Small items weighing less than 1 kg including packing materials are sent by 1st class recorded delivery. Minimum delivery charge is £2.50. Please note when ordering paper that it requires careful packing therefore normally weighs above 1kg. We are always happy to give a quote upon request.

Special Note - List price alterations.

Prices in this catalogue are subject to change without notice.

Colour charts for Inks

We offer hand printed colour charts for all the Ink ranges we stock on request.

IMPORTANT: Due to the constant significant increases in the price of metals we cannot guarantee these prices and request that you contact us or check our website for up to date prices. Apologies for any inconvenience.

Description	Size	ExVAT
Polished Copper 18 gauge (1.2mm)	1200x600mm	120.00
	1000x500mm	94.00
	500x500mm	52.52
	400x300mm	26.32
	300x250mm	16.92
	250x200mm	13.16
	150x100mm	4.42
Pre-mezzotinted Copper Hand rocked plates	125x100mm	3.95
	300x240mm	87.54
	180x150mm	34.20
	150x120mm	23.50
	120x100mm	16.75
Aluminium Plate 20 gauge (0.9mm) unpolished	100x60mm	9.20
	1250x500mm	16.67
	1000x500mm	13.55
	500x500mm	8.13
	300x250mm	2.85
Drypoint Plastic (0.50mm)	250x200mm	2.17
	1250x1025mm	12.00
	680x415mm	3.40
	pack of ten	30.60
	415x340mm	1.75
	pack of ten	15.75
	290x208mm	0.80
Clear Acrylic Plate 3mm coated both sides	pack of ten	7.20
	1000x500mm	23.75
	500x400mm	9.75
	300x250mm	4.60
200x150mm	1.90	

Description	Size	ExVAT
Zinc Jetplate 19 gauge (1mm) pre-backed *Please note our current plate has a new eco-friendly backing which can chip at the edges	1000x500mm	102.00
	500x500mm	59.16
	300x250mm	18.36
	250x200mm	14.24
	125x100mm	4.28
Polished Zinc 19 gauge (1mm) un-backed	915x485mm	52.86
	485x457mm	30.66
	485x305mm	21.67
	305x242mm	11.10
Steel Plate 18 gauge (1.2mm) unpolished	223x162mm	5.81
	162x123mm	3.44
	625x500mm	10.45
	417x312mm	5.46
Paper Drypoint Plate Inexpensive plate for drypoint and aquatint effects, without the need for etching solutions. Excellent for beginners. Sizes are approximate	312x250mm	3.78
	312x208mm	3.15
	156x208mm	1.68
	700x500mm	1.70
Greyboard For collographs	pack of ten	13.60
	500x350mm	0.99
	pack of ten	7.92
	350x250mm	0.70
Enviromount For collographs	pack of ten	5.60
	450x320mm	0.45
	320x225mm	0.25
Cutting Service Plates can be cut to specific requirements (except steel, drypoint plastic or acrylic)	A3 420x297mm	0.70
	pack of 10	6.30
	1 cut	free
	2-3 cuts	1.00
	4-8 cuts	3.00
	9 or more cuts	5.00

Photopolymer Plates & Bases

Photo Etch Emulsion A liquid etch resist photo emulsion. Easy roll on application	1kg	90.64
	200g	25.10
Photo Emulsion Reducer	250ml	5.50
Add up to 2% to reduce the viscosity of photo emulsion to use in screenprinting or photo etching		
Toyobo Printtight Solar Plate (KM73) Environmentally sound photopolymer on steel plate used to transfer a diverse range of images for intaglio. The process contains no chemicals	1065x790mm	95.00
	600x500mm	36.00
	A2 594x420mm	30.00
	A3 420x297mm	15.50
	300x250mm	11.00
	A4 297x210mm	9.00
Danish Aquatint Screen Random Dot	A5 210x148mm	5.50
	305x430mm	46.50
	540x790mm	66.00
	800x1080mm	108.00

Intaglio Photopolymer Film (50 microns)	43cm x 3m	30.50
	43cm x 10m	84.00
Intaglio Photopolymer Film (50 microns) <i>Sample kit with developer included</i>	43cm x 1m	13.25
Puretech (25 microns) Thin film, can only be used as an etching resist	61cm x 3m	85.00
Toyobo Printtight Solar Plate (KF95) Thicker polymer plate on mylar plastic	A2 594x420mm	30.50
	A3 420x297mm	15.75
	A4 297x210mm	9.10
Toyobo Printtight Solar Plate (KM95) As above but thicker polymer	A2 594x420mm	33.00
	A3 420x297mm	17.05
	A4 297x210mm	9.70
Toyobo Printtight Solar Plate (KM152) 1.52mm thick polymer plate, steel backed	A2 594x420mm	54.00

Photo Etching Sundries

Press 'n' Peel Blue Transfer Film Transfer photocopies and laser printed images directly onto metal. UV light not necessary	285x215mm	1.95
Magnetic Plate 0.75mm Excellent non slip base plate for use with steel, especially solar plates	620x500mm	9.35
	310x250mm	4.05
Pantall Opaque Pens Waterproof retouching and correction pens with very high density for films	Red 1mm	9.75

Stouffer Wedge 21 Step Greyscale film used to determine optimal exposure in all photo etching and photo polymer techniques		13.50
Kuretake Opaque Pens Opaque red pen perfect for retouching reprographic negatives and creating autographic positives.	Ultra Fine 0.3mm	1.62
	Super Fine 0.05mm	1.74
	Fine 0.7mm	1.74
	Medium 1.0mm	1.99
	Brush	2.16
Pack of 5, Ultra Fine, Fine, Medium, Brush, Broad	Broad 3.5mm	2.16
		12.25
True Grain	80x122cm	16.65

Plate Polishing & Degreasing

Description	Size	ExVAT	Description	Size	ExVAT
Whiting Powder	1kg	4.25	Brasso	1ltr	15.20
Degreases plates when mixed with ammonia	500g	2.70		175ml	4.36
Ammonia	500ml	3.20	Pumice Powder	500g	11.92

Stop-out Varnishes

Rhinds Stopping Out Varnish	60ml	5.17	Straw Hat Varnish	1ltr	18.52
	250ml	11.58	Methylated spirit based	500ml	10.48
	1ltr	35.58		250ml	5.76
Charbonnel 'lamour'	1ltr	44.00	Dark Straw Hat Varnish	500ml	14.86
Black covering varnish	250ml	17.67	Similar to above but with added dye	250ml	9.88
Substitute for Rhinds SOV			Brunswick Black	1ltr	17.18
Intaglio Stop Out Varnish	250ml	9.00	Slow drying resist, turpentine based	100ml	3.68
	1ltr	24.00	Button Polish	100ml	3.00
Varnish Remover	500ml	6.50		250ml	5.85
For use with red stop-out					

Acid Tanks & Trays

Vertical Etching Tank Z*Acryl		310.00	Propylene Trays	24 x 20in	38.75
Use free standing or set into workbench				20 x 16in	18.18
Large capacity holds two 18"x24" plates				16 x 12in	12.00
Holds 18 litres of etchant				12 x 10in	8.05
				10 x 8in	6.25
Grey PVC Acid Bath	42 x 30 x 3"	177.47			
Flat based, rigid PVC with stop-cock	carriage	24.00			
Large baths can be ordered at specific sizes, quotations available upon request					

Etching & Stripping Solutions

Copper Sulphate Crystals	5kg	38.00	Citric Acid Powder	5kg	30.75
	1kg	8.25		1kg	7.95
	500g	5.15	Potassium Hydroxide	5kg	19.06
Dutch Mordant	5ltr (collection only)	24.50	Supplied in pellet form		
Available to order, please call in advance			Strong solution can be made of : 500g Potassium powder : 6.5 ltr water (approx)		
Ferric Chloride Solution	5ltr (collection only)	17.90	Soda Crystals (sodium carbonate)	1kg	2.30
45° baume	1ltr (collection only)	5.77	Weaker solution made by mixing soda crystals to hot water ratio 1 : 2		
Ferric Chloride Crystals	1kg	13.50	Beaume Hydrometer		15.81
Add crystals to hottish water and slowly continue dilution with tepid water.			For testing strength of ferric chloride		
Copper and steel can be etched with ferric chloride solution.			Hydrometre Beaker	63mm x 350mm	30.52
Zinc will etch but slower, speed up process by using "Edinburgh Etch" made up of:			Glass beaker for measuring the baume of liquids		
500g citric acid : 1ltr ferric chloride : 5 - 7 ltr water					

Protective Clothing

PVC Coated Cotton Gloves	per pair	3.35	Plastic Disposable Gloves	per box 100	2.00
Chemical & ink resistant / heavy duty			Medium and large		
Blue Nitrile Gloves	per pair	4.23	Protective Dust Mask	per pack	3.13
Gauntlet type, flock lined			Pack of three cup masks		
small, medium, large			Safety Goggles	per pair	4.17
Disposable Vinyl Gloves	per box 100	5.50	Canvas Apron	each	10.50
small, medium, large - powdered	per pair	0.30	PVC Coated 14" Gloves	per pair	4.95
Economy Vinyl Gloves	per box 100	4.00	Gauntlet type		
non powdered - medium & large					

			Resists & Grounds		
Description	Size	exVAT	Description	Size	exVAT
Artools Black Satin Ground	250ml	13.50	Hunt Speedball Screen Filler	944ml	27.00
Artools Soluble Lift Ink For sugar lift	250ml	13.50	Makes a brilliant wash ground that will perform beautifully in ferric. Can also be airbrushed to create aquatint effect.	236ml	10.00
Artools Ball Ground Hard or Soft Melts at a higher temperature	100g	11.00	Fablon	45 x 100cm	2.70
Charbonnel Ball Ground Hard or Soft	25g	7.17	Black sticky backed plastic	45cm x 15m	35.59
Liquid Ground	1pt	11.25	Acid Resist Pen	each	4.84
Hard or soft, excellent alternative to solid grounds, easy to apply, requires no smoking			Sugar Lift Picasso method, plumtree	60ml	6.25
Rosin Powder fine (Graphic Chemical)	1lb	16.45	opaque. Dilute with pure water if necessary	30ml	3.85
Lump Rosin	500g	6.15	Asphaltum Powder	500g	8.50
Intaglio Fine Rosin - Pure	kg	18.50	Charbonnel Satin Ground	250ml	19.25
Baldwin's Ink Ground (BIG)	120ml	12.50	Charbonnel Ultraflex	75ml	9.25
Excellent new paste ground, can be used as hard or soft ground. Red or Black	75ml	8.40	Artools Transparent Ball Ground	100g	11.00

			Lascaux		
Lascaux Acrylic Resist Etching (ARE)			Lascaux Tusches		
Developed in collaboration with Carol Robertson and Robert Adams a safer way to etch onto copper, brass, zinc, aluminium and mild steel plates			A water-soluble painting material to create positives for light-sensitive printmaking processes. Used in screenprinting, acrylic resist etching, solar plate printing and traditional printmaking methods.		
Lascaux Hard Resist	500ml	25.15	Lascaux Tusche wash	500ml	23.70
Apply to plate by brush, soft waxy feel			Lascaux Tusche wash spray	500ml	23.70
Lascaux Soft Resist	500ml	25.15	Lascaux Tusche waterproof	500ml	23.70
Slower drying designed to offset easily			Lascaux Tusche water soluble	500ml	23.70
Lascaux Plate-Backing Resist	500ml	25.15	Lascaux Tusche soft ground effect	500ml	23.70
Lascaux Stop-Out Resist	500ml	25.15	Lascaux Tusche Lift Solution	500ml	20.15
Lascaux Wash Resist	500ml	21.30	Lascaux Tusche diluting liquid	500ml	20.15
Used with Aquatint/Spray Resist to create unusual etched effects similar to watercolour/tusche washes			Lascaux Tusche Set		35.25
Lascaux Spray/Aquatint Resist	500ml	25.15	85ml each of Tusche wash, wash spray, waterproof, water soluble, soft ground effect and diluting liquid		
Coloured resist, creates range of controllable tonal effects when sprayed onto the plate					
Lascaux Black or White Coating for Hard Resist Makes etched drawing highly visible	500ml	21.30			
Lascaux Acrylic Resist Etching (ARE) Set		59.85			
One of each, set of nine 85ml bottles					

			Ink Modifiers		
Plate Oil English	1ltr	13.46	Cobalt Drier	100ml	5.13
Available thin, medium, thick	500ml	8.18	Dries ink from surface downwards		
	100ml	2.63	Manganese Drier	100ml	5.13
Magnesium Carbonate	500g	12.60	A body drier for ink, avoids glossy finish		
In powder form for stiffening ink	125g	5.10	Anti-Skinning Spray (SALE)	400ml	3.50
French Chalk	1kg	4.30	Prevents ink drying on rollers and forming a skin in the tin		
	500g	2.75			
Tack Reducer Gel Reduces stickiness of inks	250g	7.35			

			Ink Application & Wiping		
Leather Dabber			Cheesecloth 91cm wide	per metre	1.90
Nap or shiny, black or dark green	80mm diameter	11.54		50 metre roll	82.00
Shiny only, gold, silver, royal blue, red, lime green	80mm diameter	13.00	Tarlatan / Scrim Medium 114cm wide	per metre	1.85
Rubber Squeegee Strips	1 1/2" x 2"	0.63		50 metre roll	78.50
For applying or removing ink on plate			Dense 91cm wide	per metre	1.90
Wooden Handled Squeegee	10cm	6.50		50 metre roll	82.00
For easy ink application on large plates			New Professional Tarlatan / Scrim	per meter	3.20
Arteina Blue Plastic Ink Spatula		1.90	Soft but higher thread count 150cm wide	50 metre bolt	134.00

Needles

Description	ExVAT
Traditional Etching Needle (a) Wooden handled steel needle	7.75
Steel Scriber Fine (b) All metal etching needle	10.45
Steel Scriber Heavy (d) Heavier metal etching needle	10.95

Description	ExVAT
Economy Etching Needle (e) Strong cheap needle with wooden handle	2.35
Box of 40 economy needles	65.00
Cork Scriber (not shown) Metal Scriber with Cork Shaft	14.00

Etching/Drypoint/Combination Tools Etching

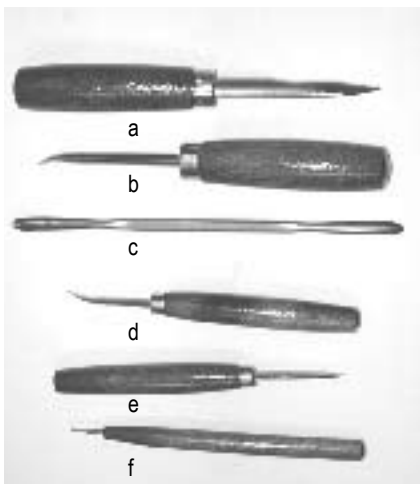

Double Ended Drypoint Twist (b) All metal tool with twisted shaft	7.75
Drypoint Flat Burnisher (c) With straight metal shaft	10.95
Drypoint Flat Burnisher (d) With twisted metal shaft	12.50
Balanced Steel Drypoint (e) Excellent drypoint tool, all metal	12.95
Diamond Point Tool (f) Excellent frictionless drawing	19.50
Drypoint Spoon Burnisher (g) All steel tool with a straight shaft	12.75
Half-tone Rake (h) Excellent tool for softening harsh edges	23.00
Scratchboard Tool (i) Inexpensive multiple lining tool	17.50
Burnisher Needle (j) Etching needle & flat burnisher	21.00
Carbide Scribe (not shown) Similar to diamond	12.50
Arteina Professional Rubber Double Point	10.75
Arteina Steel Point	8.25
Arteina Knurled Steel Point	9.10
Arteina Drypoint Junior 2mm, 3mm or 5mm	3.50
Arteina Double Point Junior	9.00

Burnisher/Scrapper German (k) Double ended tool with hollow scrapper	34.00
Burnisher/Scrapper American (l) Double ended tool with flat scrapper	18.50
Crible Point Sharp	12.00
Crible Point Squat	12.00

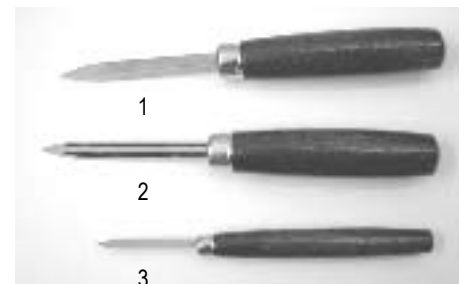

American Drypoint Burnisher (not shown) All metal drypoint and curved burnisher	9.35
American Twisted Black Double Ended Drypoint (not shown) Good quality economy drypoint tool	5.95
American Small Burnisher/Scrapper (not shown) Good quality economy tool	12.50

Burnishers and Scrapers

Straight Burnisher (a) Wooden handled tool	10.00
Curved Burnisher (b) Wooden handled tool	10.15
Double Ended Burnisher (c) Straight and curved burnisher with metal shaft	24.75
Small Curved Burnisher (d)	9.75
Small Straight Burnisher (e)	9.75
Ball Burnisher (f) For burnishing areas of fine detail	6.90
Mini flat Scraper (not shown) Slimline, wooden handled tool	9.00

Solid Scraper (1) Large wooden handled tool	9.75
Hollow Scraper (2) As above	9.75
Small flat Scraper (3) Small, wooden handled tool	9.50

Mezzotint Rockers

E. C. Lyons USA rockers are known world-wide as the finest mezzotint rockers available. These tools come in standard sizes from 1/2" to 6" wide. The gauge sizes are: Course 45, Medium 65, 85 and Fine 100 (lines per inch). By working (rocking) the tool over the plate in a criss-cross fashion, the burrs created, produce rich velvety blacks unequaled in any other intaglio medium. Order by width and gauge. **Special orders available upon request.**

Description	Size	exVAT
Mezzotint Rocker	0.5 inch	44.00
With 45, 65, 85 and 100 lines per inch	1 inch	58.50
	2.5 inch	126.00

Rocker Weight Sets 33.00

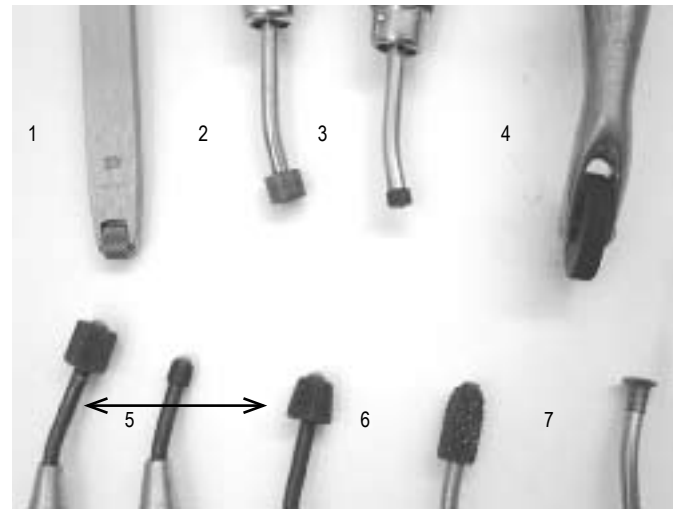

Steel weights (650g). The Weights aid in rocking a ground more efficiently and with far less effort. They attach to the rocker with two bolts (supplied). The standardized holes make them interchangeable in rockers 2" to 6" wide. The rocker weights were designed in cooperation with Carol Wax author of the book *The Mezzotint History and Technique*.

Rocker Pole 3 inches wide 57.00

Pole Rocker Sharpener 35.00

Description	Size	exVAT
Drum Roulette (1) Line or dot texture, in grades	fine (120, 100) medium (85) coarse (65,45)	37.40
Roulette 5mm (2) Grades as above		25.75
Roulette 2mm (3) Dot texture in grades as above		25.75
Line Roulette (7) grades as per drum roulette Gives single line dots		26.75
Irregular Roulette (6) Egg shaped, gives irregular pebble effect		46.75
Arteina Roulette Box Wooden box contains 4 Roulettes, either 2mm or 5mm size		51.50

Roulette Wheels

Ink Knives

Small Palette Knife	3 inch blade	4.00
Heavy Duty Palette Knife	4 inch blade	11.00
	6 inch blade	12.50
	8 inch blade	13.75
Push Knife	1.5 inch wide	8.75
	2 inch wide	9.00
	2.5 inch wide	9.50
Filling Knife Flexible push knife	1.5 inch wide	9.50
	2 inch wide	9.80
	2.5 inch wide	11.20

Small Plastic Palette knife	2.5cm, each	1.40
	Pack of 5	5.75

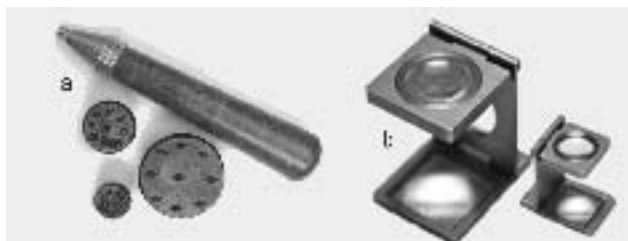

Etching Solvents

Description	Size	exVAT	Description	Size	exVAT
Genuine Turpentine	250ml (collection only)	4.98	White spirit	2 ltr (collection only)	4.25
				500ml (collection only)	1.80
Methylated Spirits	5 ltr (collection only)	19.83	Oil of spike Lavender	75ml	13.17
	500ml (collection only)	3.13	For use in varnishes to improve levelling/flow of brush marks: slower evaporation than turpentine		

Eco Solvents

Mystrol	5 ltrs	12.50	Zest - it, Oil Paint Dilutant	ltr	15.57
Citrus cleaner; removes Lascaux (ARE) range and oil based inks. Pleasant alternative to white spirits	ltr	3.75	A natural solvent for diluting oil colours and cleaning brushes	250ml	6.42
	500ml	2.55		125ml	4.27
Zest - it, Solvent (citrus free)	250ml	6.33	Zest - it, Washaway Brush Cleaner	ltr	14.28
a much safer solvent for oil painters than Gum Turpentine and makes an excellent replacement. The solvent is just as easy to use as the original Zest-it and can be used in just the same way.			A safe non-flammable solvent for cleaning oil based ink and cleaning brushes	250ml	6.19
				125ml	4.21
			Arteina Vegetable Cleaning Agent	250ml	4.00

Sundry Tools

Scalpel Knife		3.99
Scalpel Blades	Pack of five	0.90
Curved or straight	Box of 20 pkts (5)	15.10
Shaver Tool		15.00
Heavy steel tools for direct etching		
Stone Spherical Grainer (a)	10mm diam	6.50
Synthetic ruby graining stone.		
Biffer (b) Large ball burnisher	14mm diam	9.25
Steel Spherical Grainer (c)	15mm diam	12.50
Very course, irregular dot		
Steel Hammer (d)		9.60
Bronze Brush (e)		6.50
For cleaning roulettes & grainers		
Draw tool (f)		18.00
Cut plates by drawing this tool several times across		
Steel Hand Vice (g) For holding metal plate		20.00
Arteina Beveller		19.00

Jewelers Loupe 4.00

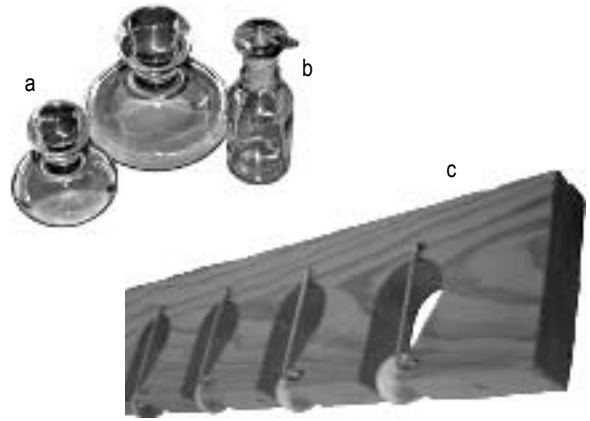

Magnifying Glass (b) 15 x 15mm 19.50
 Folding with stand incorporated 30 x 30mm 30.00

Hand Cleaner

Citraclean Hand Cleaner	4.5lb tub	21.00	Intaglio Barrier Cream	1ltr tub	15.20
A totally organic product made with citrus oil and pumice	1lb tub	5.75	All natural ingredients, excellent protection from inks and solvents		

Description	Size	exVAT
Pipettes Disposable for dropping acid	each	0.15
Glass Muller (a)	5cm	33.87
Hand Made with sandblasted face for grinding pigments.	7cm	45.19
	10cm	94.98
Acid drop Bottles (b)	50ml	6.05
Glass bottle and stopper		
Ball Drying Rack (c)	18 print 140cm	99.00
Handmade wooden racks with glass ball		
Feathers	each	0.50
	per dozen	5.40
Caulking Gun		5.61
Use in conjunction with ink cartridges		
Wax Tapers	12in length	6.00
Pack of fifty		
Shellac Flakes	250g	10.25
	500g	18.35
	1Kg	31.55
Empty Metal Tubes	120ml	0.95
Empty Cartridges		0.79
To fit standard caulking gun with cap		
Empty Plastic Bottle	litre	1.10
With plastic lid	500ml	0.85
	250ml	0.60
Empty Plastic Tubs	150ml	0.76
	250ml	0.86
	500ml	1.00
Cutting Mats	A0 1200x900mm	59.57
	A1 841x594mm	26.50
	A2 594x420mm	13.21
	A3 420x297mm	8.12
	A4 297x210mm	4.37
Saral Wax Free Transfer Paper Roll	366cm x 305mm	15.67
Yellow, Red, Blue, White, Graphite		
Deckle Edge Ripper	620mm	16.66
Quality rigid clear acrylic rule, allows you to create rough edging to your images		
Steel Rule	1 metre	18.74
Paper Blender		2.05
For smudging, also useful for lithography		
Clear Polypropylene Film	per metre	0.82

Intaglio Printmaker Etching Ink

Hand printed colour charts are available on request

A finely ground, pigment ink - comprising a range of over thirty colours. These inks have excellent colour permanence, are of high colour strength and are slightly softer than most inks due to the fine grinding of the powder pigment. The inks are made from organic pigment.

Gutenberg Etching Inks

These inks are very highly pigmented, used carefully a little goes a long way. The colours are beautiful and the range contains colours not available in other brands, for example a proper cerulean blue and a fantastic pink magenta. The black is slightly cheaper than the Charbonnel 55985 and will out perform it, and most other ready - mixed blacks. It is very strong but easy as anything to wipe.

Caligo Safe Wash Etching Ink

Caligo Etching inks are designed to safely and easily wash away with hot soap and water alone, they are however oil based and will therefore handle and print like traditional oil printing inks. They have relatively stiff consistency and wipe away evenly, giving you control over the amount of ink (plate tone) you wish to leave or remove from your plate. These inks are lightfast (Blue Wool Scale 6 or higher).

Akua Water Based Etching Ink

A water based intaglio ink made with the highest quality gum binders and light fast pigments. The consistency of the ink may vary as water in the ink can cause the gums in the ink to swell and soften, so the ink may become loose when exposed to heat or left out on the slab over a period of time. Wiping the plate with water based ink is quicker than oil based ink so less wiping pressure is advised. Akua ink does not skin or harden and cleans up easily with soap and water. It is safe to use without ventilation.

Intaglio Printmaker Hand Rollers

All our hand rollers are supplied in Nitrile PVC due to the great popularity of this material. Nitrile PVC has all the properties of polyurethane but in many ways it is superior. It will not be adversely affected by water or ultraviolet light, and will not soften over time, yet it matches the polyurethane in its toughness and its quality of surface. The INTAGLIO ROLLER FRAME is modelled on a traditional design favoured by printers for its strength and durability. It is crafted from 4mm steel with brass locking screws and a wood handle.

All our hand rollers are 25 shore as standard
Specific requirements can be requested
please contact us for details

Complete Roller Length

	2"/50mm dia	2.5"/63mm dia	3"/75mm dia
2"/50mm	62.00	64.50

8"/200mm	54.50	61.50	
10"/250mm	67.50	77.50	83.50

Intaglio Printmaker Spindle Rollers

Our spindle rollers are manufactured from Nitrile PVC, cured and ground on a hollow aluminium core. We supply two standard sizes as listed below, but are happy to quote you on larger rollers.

When ordering rollers please specify the shore hardness you require, our standard shore is 30=soft, 40= firm, or anything harder up to 70 shore. Calculate your required size by multiplying pi (3.142) by the diameter of the roller. This will give you the circumference of the roller.

Roller Size

Roller Size	Maximum inking surface	
12" length x 4" diameter	12" x 12 1/2"	188.00
14" length x 5" diameter	14" x 15 1/2"	223.00

Leather Rollers

Leather Hand Roller 1 3/4" diameter	4"/100mm	200.00
	8"/200mm	265.00

Leather Spindle Roller 1 3/4" diameter	35cm	400.00
	45cm	480.00

Leather Roller Grips

Moulded leather grips for use with spindle rollers

Stitched (per pair)	100mm x 30mm	29.20
Unstitched (per pair)	100mm x 30mm	17.50

Japanese Soft Rubber Rollers

These are made with a thick covering of soft rubber with a wood handle and are excellent for all inking requirements

Complete 1 3/4" diameter	1"/30mm	21.00
	4"/100mm	30.50
	6 1/2"/165mm	34.50
	8 1/2"/215mm	42.50

Japanese Hard Rubber Rollers

These are made with a thick covering of hard rubber with a plastic handle and are excellent for all inking requirements

Complete 1 3/4" diameter	1"/30mm	20.00
	4"/100mm	25.50
	6 1/2"/165mm	31.00
	8 1/2"/215mm	41.50

Economical Red Handled Rollers

Good economical rollers with a thin firm covering of rubber giving them a hard surface and have a red plastic handle. Now Boxed

Intaglio Printmaker's hand crafted wood engraving tools

Intaglio Printmaker has been working with the artist engraver Edwina Ellis to develop a range of high quality wood engraving tools. Edwina has thoroughly researched this specialist field of tool making giving special attention to steel quality, sharpening, tool length and handle design. We are now pleased to offer the following range of these excellent hand crafted engraving tools.

Endgrain Woodblocks

Wood Engraving Blocks

Endgrain blocks are employed by wood engravers because even, precise cutting across the growth rings is possible in a way that side grain would not allow. Relatively few woods are good for this purpose, and only a very small number perform exceptionally well. Boxwood is the traditional choice due to its outstanding, and unique, properties. Genuine Boxwood (*Buxus Sempervirens*) is very dense, even and easy to engrave, allowing the artist to engrave the finest possible lines without crumbling. English boxwood blocks have always been much sought after. Lemon is a very good alternative to boxwood. Although not quite as dense as boxwood, it is used by many leading engravers on a regular basis, especially when larger blocks are required due to its more modest cost. Pearwood also makes a suitable engraving surface. Whilst not as dense as either Box or Lemonwood, it nevertheless engraves evenly and gives good results. Good for beginners who do not want to experiment on more costly woods, and for bolder styles of engraving.

Care of endgrain Blocks. Endgrain wood is especially susceptible to changes in temperature and humidity. The structure of endgrain fibres is such that the wood absorbs and distributes heat and moisture much more readily than sidegrain. With this in mind blocks should be housed in as stable an atmosphere as possible, in cool and dry conditions and away from sources of heat such as radiators and direct sunlight. If engraving by work lamp then try to avoid placing it too near the large blocks, and never leave the block exposed to the lamp after finishing work. Always store blocks on the end, like books on a shelf. This is especially important with larger blocks. Most engravers tone or blacken the block surface in preparation for engraving, it is important to be as sparing as possible with the water based media since too much wetting will open up the wood fibres.

All blocks are made by Chris Daunt who has made engraving blocks for many years and is a wood engraver and an elected member of the society of Wood Engravers. Large blocks and non standard sizes are available to order.

Engraving Tools

Description

Burins (4 1/2" long)

The primary printmaking tools for printmakers. Available in two styles: square shape; makes a V-shape line as deep as it is wide in sizes 2-12. Lozenge (diamond) shape; makes a narrow V-shape line deeper than it is wide, sizes 22-28.

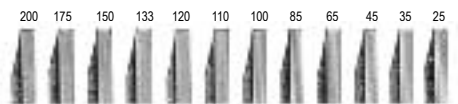

Burin sharpeners

For hand sharpening of burin engraving tools, holds tool at correct angle.

Multiple Line Tools (4 1/2" long)

Liners make multiple parallel lines with one stroke. Available in gauge sizes 25 - 200 (lines per inch) width sizes up to 1/8" and 3/16. A liner marked 65/5 is a gauge with 5 line. Order by gauge size and number of lines. Used for shading, florentine and background work.

Intaglio Printmaker Oil Based Relief Inks

Hand printed colour charts are available on request

The Intaglio Printmaker Relief/Lithography inks are recommended for block printing when mixed with 40% transparent extender, making an economical range of permanent single pigment colours that are lightfast. Please note that these are **slow drying** and may need to be used with driers (see page 2)

Caligo Safe Wash Relief Ink

Hand printed colour charts are available on request

Caligo is an oil based ink that washes out in hot soapy water. These inks contain no fillers or extenders and so are of a high colour strength. Drying time does vary from colour to colour, and we strongly recommend the use of driers if a fast setting time is required

Japanese Woodcutting Tools

Our range of Japanese woodcut tools has been specially selected for high quality and performance. The blades are manufactured from Japanese high speed steel which is extremely hard and will stay sharper longer. They open to reveal a long length of blade, making it possible to alter the handle length and to resharpen them many times giving them a longer life than most other tools.

Speedball Kits

Speedball Paper & Board Screen Printing Kit

Everything you need to design and print your own posters, cards and signs. Contains 120ml black, yellow, blue and magenta acrylic waterbased inks, 25 x 35cm screen frame and base with hinges, drawing fluid, screenfiller, tracing paper and full instructions. each 60.00

Speedball Fabric Screen Printing Kit

Excellent value starter pack. Includes 25 x 35cm wooden frame and screen, squeegee, 120ml black, red and yellow fabric printing inks, 120ml drawing fluid, 120ml Diazo photo emulsion, 0.5g Diazo sensitizer, paint brush, mixing sticks and full instructions. each 51.00

Speedball Opaque Fabric Screen Printing Kit

Excellent value starter pack for use on dark fabrics. Includes 25 x 35cm wooden frame and screen, squeegee, 120ml silver, blue topaz and raspberry pearlescent fabric printing inks, 120ml screen filler, 120ml drawing fluid, 118ml Diazo photo emulsion, 0.5g Diazo sensitizer, 120ml photo emulsion remover, paint brush, mixing sticks and full instructions. each 53.00

Speedball Opaque Fabric Screen Printing Starter Ink Set

Excellent value starter pack. Includes 118ml of six pearlescent and iridescent colours: Black pearl, white pearl, silver, blue topaz, raspberry and citrine each 23.60

Speedball Fabric Screen Printing Starter Ink Set

Excellent value starter pack. Includes 118ml of four colours: Black, blue, red and yellow each 15.00

Speedball Acrylic Screen Printing Starter Ink Set

Excellent value starter pack. Includes 118ml of four colours: Black, process cyan, process magenta and process yellow each 15.00

Speedball Screen Printing

Fabric Printing Inks

These inks are formulated for fabric screen-printing. They do not contain solvents, are non-toxic and non-flammable, drying to a smooth matte finish. Prints have a soft handle and are wash fast if properly heat-set. After the ink has dried, heat-set for 5 minutes at 150 C or 3 minutes at 200 C. Alternatively, iron the reverse side for 3 minutes with a hot iron (use the normal fabric setting), Wash the fabric inside out. The inks can be used in cotton, polyester and blends, linen, rayon, fibreglass, and other synthetic fabrics.

Black, White Red, Blue, Yellow, Denim, Brown, Orange,	236ml	7.75
Violet, Peacock Blue, Burgundy, Green Process Cyan, Process Magenta, Process Yellow.	944ml	23.50

Fabric Opaque Ink - Gold, Silver	236ml	9.95
---	-------	------

Acrylic Extender Base	236ml	7.50
Use as a thinner to achieve transparency	944ml	19.00
	3.78 litre	35.00

Fabric and Acrylic Transparent Base	236ml	7.40
For use with permanent acrylic and textile inks	944ml	14.00

Transparent Extender Base	944ml	13.00
For use with water soluble inks on paper only		

Retarder Base	236ml	7.50
Extends the life of wet ink while working with them		

Drawing fluid	236ml	6.50
Use as a resist in combination with screen filler to create a stencil	944ml	20.40

Screen Filler	236ml	10.00
Water-based filler used to block out areas not intended to be printed	944ml	27.00

Speedclean	473ml	8.00
Screen filler remover and screen cleaner	946ml	13.75
	3.78 litre	30.00

Permanent Acrylic Inks

Permanent Acrylic inks are generally used on paper and board to give a pigmented, matte finish. They are water-based, non-toxic and non-flammable. The inks do not contain solvent and dry to a water resistant finish. They combine the intense colour and permanence of oil based inks with the convenience of water wash-up.

These inks print well on wallpaper, oil based primed boards and wood, on vinyl and primed surfaces they should always be pre-tested.

Black, White, Primrose Yellow, Medium Yellow, Orange,	236ml	7.75
Fire Red, Medium Red, Dark Red, Violet, Ultra Blue, Peacock Blue, Dark Blue, Emerald Green, Brown, Process Cyan, Process Magenta, Process Yellow, Gold, Silver	944ml	23.50

Diazo Sensitizer	60ml	6.25
Activates photo emulsion so that it becomes light sensitive		

Diazo Photo Emulsion	781ml	20.00
For use with the photo sensitizer to create screen images from stencils or other image sources		

Photo Emulsion Remover	236ml	6.50
An effective screen cleaner	946ml	21.50

Diazo Photo System Kit	each	26.00
Contains 236ml Diazo photo emulsion, 1 Diazo sensitizer, 236ml photo emulsion remover		

Hinge Clamps	1 pair	23.50
Cast aluminium, durable and rust resistant		
Maintains fixed frame position

Hand Printing Press

Akua Pin Press - Aluminium roller with crecent handles, ideal for printing monotypes, lino cuts and most other relief prints 280.00

Intaglio Printmaker Etching Press

This traditional style etching press has been popular with our customers for over 15 years and is available to view and / or test in our studio. This press has a large diameter handwheel that makes turning very easy and a 1/2 inch steel bed and solid rollers. Designed as an etching press the Intaglio Printmaker press is equally efficient for printing relief blocks and collagraphs, making it a versatile model for a range of printmaking applications.

Bed
20" x 40" precision ground 1/2 inch steel with safety stops at either end (removable if preferred)

Rollers
Precision ground solid steel, top roller diameter 4 inch. Mounted on self lubricating bearings

Handwheel
Diameter of 30 inch for ease of movement.

Pressure Adjustment
Adjustment is made by easy grip toggle bars and the top roller can be raised to type height.

Maintenance
These presses have been designed to be maintenance free for the convenience of the artist. If the press is to be placed in a damp environment we recommend the use of a metal protector on the rollers and bed.

Bed Support
Steel bed is supported on adjustable polyurethane rollers turning on a stainless steel cross shaft for near fractionless and lubrication free motion.

Warranty
All presses have a twelve month parts and labour warranty.

Stand
A full welded stand is also available, designed with cross bars to enable a shelf to be fitted.

Weight
180kg including stand

Intaglio Printmaker is pleased to offer presses and hot plates from this reputable Dutch company. Polymetaal has a long history in the design and manufacture of printmaking equipment. Equipment carries a ten year guarantee, except for parts provided by suppliers which carry the guarantee of the manufacturers. All Intaglio presses are fitted with an extremely hard synthetic bed and are also fitted with springs under the top roller. The loosening of the pressure spindles raises the top roller to facilitate relief printing techniques. We have included summary descriptions of our standard ranges. Unless otherwise indicated, the prices listed here are inclusive of crating and delivery to the UK within the M25. Please note that delivery is made via a courier only to the door and you will be required to put the press in situ yourself. A full installation service is often preferred on the larger presses - arrangements and charges for this are available on application. For presses going to other destinations please ask for a quotation. Prices are listed without VAT which is chargeable to EC customers at 20%. All dimensions are in centimeters. Delivery time is up to three months from the date of order, a 25% (gross) deposit is required.

JH - Series Intaglio Presses

Model No.	JH-30	JH-40	JH-50
Price Ex. VAT	1,150.00	1,250.00	1,310.00
Bed dimensions cm	30 x 60	40 x 80	50 x 100
Diameter upper roller	8.5	8.5	8.5
Diameter lower roller	8 (solid)	8 (solid)	8 (solid)
Weight kg (approx)	55	60	65

These presses are driven directly on the lower roller by means of a star wheel. Both rollers turn on sealed ball bearings. The star wheel is attached with a key joint to the press. An underframe for this series is optional.

Underframe JHO: approx weight 20kg	270.00
Underframe JHOW as above with wheels	370.00

JS - Series Intaglio Presses

Model No.	JS-50	JS-60
Price Ex. VAT	1,845.00	1,990.00
Bed dimensions cm	50 x 100	60 x 120
Diameter upper roller	12.5	12.5
Diameter lower roller	8 (solid)	8 (solid)
Weight kg (approx)	75	85

Like the JH- series these presses are directly driven by the lower roller which has a detachable wheel. Heavier construction and an adjustable plate guide being the visible differences. The rollers turn on ball bearings which makes the press easy to operate.

Underframe JSO: approx weight 20kg	180.00
Underframe JSOW as above with wheels	280.00

JSV - Series Intaglio Presses

Model No.	JSV-50	JSV-60	JSV-80
Price Ex. VAT	2,175.00	2,400.00	2,760.00
Bed dimensions cm	50 x 100	60 x 120	80 x 130
Diameter upper roller	12.5	12.5	13.5
Diameter lower roller	8 (solid)	8 (solid)	8 (solid)
Gearing Ratio	1:3	1:3	1:5.3
Weight kg (approx)	80	90	120

These presses have a gearing system with gear wheels on the lower roller. The general construction of the JSV - series is similar to the JS - series. The gear wheels are protected with a steel cover. The star wheel is detachable.

Underframe as JS series

All prices exclusive of VAT @ 20%

JSVE - Series Intaglio Presses

Model No.	JSVE-50	JSVE-60	JSVE-80
Price Ex. VAT	3,690.00	3,875.00	4,250.00
Bed dimensions cm	50 x 100	60 x 120	80 x 130
Diameter upper roller	12.5	12.5	12.5
Diameter lower roller	8 (solid)	8 (solid)	9 (solid)
Gearing Ratio	1:256	1:256	1:256
Weight kg (approx)	100	120	150

The basic design is taken from the JSV - series with the following changes and features:

- driven by electric motor, 230 V, 0.75kW, single speed.
- control panel features left, right and a highlighted stop button.
- safety guard on upper roller; keeps fingers away from roller.
- motor automatically shuts off at both ends of bed.

Underframe as JS series

Presses from Polymetaal

HP - series Intaglio Presses

Model No.	HP - 60	HP - 80
Price Ex. VAT	1,950.00	2,450.00
Bed dimensions cm	60 x 120	80 x 130
Diameter upper roller	13	13
Diameter lower roller	10	12
Weight kg (approx)	115	145

The HP- series presses are upper roller driven. The spokes of the wheel are made of stainless steel pipe. These presses are ideally suited for lino and woodcuts as well as intaglio printing.

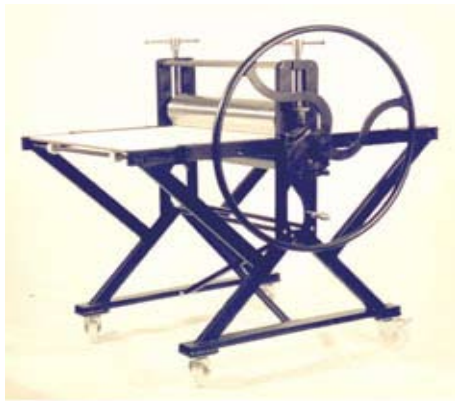

Underframe HPO - 60	180.00
Underframe HPO - 80	200.00
Underframe, two shelves HPOD - 60	320.00
Underframe, two shelves HPOD - 80	340.00
Underframe two shelves, and wheels HPODW - 60	420.00
Underframe two shelves, and wheels HPODW - 80	470.00

HPV - series Intaglio Presses

Model No.	HPV - 60	HPV - 80
Price Ex. VAT	2,400.00	3000.00
Bed dimensions cm	60 x 120	80 x 130
Diameter upper roller	13	13
Diameter lower roller	10	12
Weight kg (approx)	135	165

As in the HP- series the distinguishing feature of the HPV- series is the upper roller drive. A gear ratio of 1:3.5 ensures a uniform motion during the printing process. Heavy duty double chains that drive the gearing are encased in a safety cover on the opposite side of the press as the driving wheel. Easily accessible screws are used to bring in the slack on the drive chains. The longer spokes in the wheel of the HPV - 80 facilitate the use of this press.

Underframes as HP- series

JPV - Series Intaglio Presses

Model No.	JPV - 70	JPV - 80	JPV - 90
Price Ex. VAT	4,200.00	4,400.00	4,750.00
Bed dimensions cm	70 x 140	80 x 160	90 x 170
Diameter upper roller	15	15	15
Diameter lower roller	14	15	14
Gearing Ratio	1:6	1:6	1:6
Weight kg (approx)	225	300	350

These presses are driven through a closed gear box in to the lower roller. The heavy wheel combined with the gearing ration of 1:6 make for a smooth action. Both upper and lower rollers are fitted with ball bearings. These presses are lightweight versions of the JW- series enabling it to be used in places where, for floor/ weight bearing reasons, the JW - series cannot be housed.

JPVE - Series Intaglio Presses (electric)

Model No.	JPVE-70	JPVE-80	JPVE-90
Price Ex. VAT	5,900.00	5,950.00	6,250.00
Bed dimensions cm	70 x 140	80 x 160	90 x 170
Diameter upper roller	15	15	15
Diameter lower roller	14	14	14
Weight kg (approx)	265	340	390

The JPVE presses have one fixed speed, the JPVEV presses have a continuous variable speed. Prices for JPVEV on request.

Features include:

- driven by electric motor, 230v, 0.75Kw, single speed or electronically controlled variable speed.
- control panel includes left, right, stop button and speed control.
- motor automatically shuts off at both ends of bed.
- electronic safety system on top roller, operated by light sensors. Light interruption shuts off motor.

JW- Series Intaglio Presses

Model No.	JW - 80	JW - 100	JW - 120
Price Ex. VAT	5,750.00	7,025.00	8,400.00
Bed dimensions cm	80 x 160	100 x 200	120 x 220
Diameter rollers	20	20	20
Diameter fly wheel	92	92	92
Length sideframes	152	192	192
Weight kg (approx)	450	550	650

The presses in the JW - series are designed for heavy duty use in, for example, printmaking studios. Construction is similar to the presses in the JPV - Series, the differences having to do with heavier production needs and the elongated side frames in the JW- 100 and JW - 120 presses for increased support. A heavy wheel drives the roller through a closed gear box of 1:12

JZM - series Intaglio Presses

Awaiting image
(as JZE without motor)

Model No.	JZM - 100	JZM - 125	JZM - 150
price Ex. VAT	Prices are available on request		
Bed dimensions cm	111 x 200	136 x 250	161 x 300
Diameter upper roller	30	30	30
Diameter lower roller	32	32	32
Gearing Ratio	32	32	32
Weight kg (approx)	1100	1350	1600

These strongly built presses include the following features:

- the bed is rack driven in these presses and not the rollers.
- anti-overload device to minimise damage to the press in case of sudden blockage.
- under each pressure spindle a hydraulic cylinder has been placed, linked with a hydraulic manual pump next to the handwheel enabling the printer to raise pressure on the top roller easily.

JWE(V) - Series Intaglio Presses (electric)

Model No.	JWE - 80	JWE - 100	JWE - 120
Price Ex. VAT	7,600.00	8,770.00	9,765.00
Bed dimensions cm	80 x 160	100 x 200	120 x 220
Diameter rollers	20	20	20
Length rollers	80	100	120
Weight kg (approx)	500	600	700

The JWE presses have one fixed speed; JWEV presses have a continuous variable speed. Prices for JWEV on request.

Features include:

- driven by electric motor, 230v, 0.75Kw single speed or electronically controlled variable speed.
- control panel includes left, right, stop button and speed control.
- motor automatically shuts off at both ends of bed.
- electronically safety system on top roller, operated by light sensors. Light beam interruption shuts off motor.

JZE - Series Intaglio Presses (electric)

Model No.	JZE - 100	JZE - 125	JZE - 150
price Ex. VAT	Prices are available on request		
Bed dimensions cm	111 x 120	136 x 250	161 x 300
Diameter upper roller	30	30	30
Diameter lower roller	32	32	32
Gearing Ratio	32	32	32
Weight kg (approx)	1200	1450	1700

These strongly built presses include the following features:

- the bed is rack driven in these presses and not the rollers.
- frames and rollers are very rigid
- the work pressure is legible on hydraulic gauges
- upper roller has a light beam safety device for protection
- drive is interchangeable (electric/manual)
- speed is continuously variable
- equipped with "anti-overload coupling"

Bench Top Presses

JM - Series Intaglio Presses

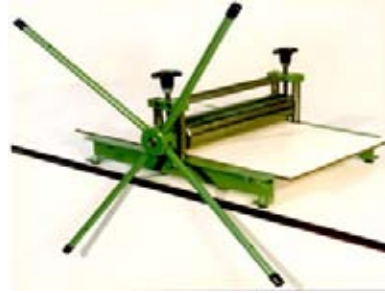

Blankets to fit	£
JM 25 (Set of 3)	28.80
Pressed Wool Felt 1/8"	5.40

Woven Wool Flannel 1/8"	5.04

Model No.	JM - 15	JM - 25
Price Ex. VAT	325.00	405.00
Bed dimensions cm	15 x 30	25 x 45
Diameter upper roller	5.5	5.5
Diameter lower roller	4	4
Weight kg (approx)	10	12

The spokes from these presses can be detached from it's hub to facilitate transport. These presses are lower roller driven and delivered with perforations on its sideframe to enable tabletop fastening. These lightweight presses are easily transported to relocated.

Bench top presses are available from shop stock, plus a delivery charge, please ask for a quote.

HS - Series Intaglio Presses

Blankets to fit	£
HS 35 (Set of 3)	53.76
Pressed Wool Felt 1/8"	10.08
Superfine Wool Flannel 1/16"	20.16
Woven Wool Flannel 1/8"	23.52
Light Quality Swanskin	22.95

Model No.	HS - 35
Price Ex. VAT	650.00
Bed dimensions cm	35 x 60
Diameter upper roller	8 (solid)
Diameter lower roller	5.6
Weight kg (approx)	36

Combining manageable design, a reasonable bed size and a very affordable price, this is highly favoured by schools and other institutions. The HS - 35 can be stored away easily by removing the four spokes from the hub. The press is upper roller driven. Like our other intaglio presses, the construction with springs facilitates relief printing if used with runners (lino, mono and woodcuts)

The HS 35 and JM 25 is available for hire on daily, weekend or weekly rates, please call for availability and prices.

Relief Presses

Description	Size	ExVAT
Relief Press RP - 20	Print size 21 x 30	1,150.00
Relief Press PVP - 35	Bed 35 x 45	775.00
Relief Press SVP - 35	Bed 35 x 45	1,175.00
Relief Press VPLER	Bed 80 x 100	poa
Electric pump and slideable underplate

Hotplate VTL - 60 x 80	700.00
Hotplate VTL - 65 x 100	920.00
Hotplate VTL - 80 x 100	990.00
Hotplate VTL - 80 x 120	1,190.00

Hotplates

Aquatint Box

The action of the aquatint boxes in the SK - Series is based on the hand driven paddle wheel. This traditional method is still able to guarantee the most even distribution of rosin on the plate. The agitator is driven by a turn handle from outside. The box is constructed of plywood and varnished.

Rosin Dust Box SK - 50	1,050.00	Rosin Dust Box SK - 60	1,150.00
Max. Plate	50x 60cm	Max. Plate	60x80cm
