

## **RHIND'S BALL GROUND - SOFT MATERIAL SAFETY DATA SHEET**

### **1. Product & Company Identification**

Product Identification: Rhind's Ball Ground - Soft

Supplier: Intaglio Printmaker  
9 Playhouse Court  
62 Southwark Bridge Road  
London  
SE1 0AT  
Tel: +44 (0) 207 928 2633  
Email: [info@intaglioprintmaker.com](mailto:info@intaglioprintmaker.com)

### **2. Composition / Information on Ingredients**

A composite of Asphaltum, Wax and Burgundy Pit.

### **3. Hazards Identification**

Not classified as hazardous for supply under UK CPL or CHIP Regulations.

### **3. First Aid Measures**

- Eye contact - Flush eye with water or approved eye wash solution and seek medical attention.
- Skin contact - Not applicable.
- Inhalation - Not applicable.
- Ingestion - Do not induce vomiting. Rinse the mouth and give quantities of water.

### **4. Fire-Fighting Measures**

- Extinguishing media - Use dry powder, foam or water spray. Never use water jet.
- Protective equipment for Firefighting - Standard

### **5. Accidental Release Measures**

In the event of a large spillage of the product in its molten state care must be taken to avoid quantities entering the sewer system as on cooling it will solidify and may cause blockages. In the event of this occurrence please contact and inform your local authorities. Allow molten product to cool and solidify and remove the solid for subsequent disposal.

### **7. Handling and Storage**

Product can be stored indefinitely in appropriate containers away from possible sources of contamination and in cool, dry conditions.

### **8. Exposure Controls / Personal Protection**

- No special precautions are necessary as the product poses virtually no hazard to health when used in normal industrial practice.
- Appropriate personal protective equipment, gloves and eye protection, must be worn when handling wax in molten state.
- Fumes during heating may cause eye and respiratory tract irritation if present in sufficiently high concentration and in such circumstances efficient localised extraction must be employed.
- Skin sensitisation or irritation is very infrequent.

## 9. Physical and Chemical Properties

- Physical form: Waxy disc
- Colour: Dark Brown/Black
- Odour: Characteristic
- pH of aqueous solution: Not applicable
- Boiling point: Not determined
- Melting point: 40°C
- Viscosity: Not applicable
- Flash point: Approximately 195 °C
- Flammability solid/gas: Not determined
- Autoflammability: Not determined
- Explosive properties: Not determined
- Oxidising properties: Not determined
- Vapour pressure: Not determined
- Density: Not determined
- Water solubility: Insoluble
- Other solubility: Miscible with most petroleum products.
- Bulk density: Not determined
- Partition coefficient octanol/water: Not determined
- Explosive limits: Not determined

## 10. Stability and Reactivity

- Stable at ambient temperatures.
- Flash point >195°C

## 11. Toxicological Information

Not information available.

## 12. Ecological Information

Not information available.

## 13. Disposal Considerations

Disposal considerations must take into account that waxes are generally non-biodegradable in the short term. Non-recoverable waste should be disposed of via a licensed waste contractor.

## 14. Transport Information

- UN number: Not assigned
- IMDG code/class: Non hazardous
- ICAO/IATA (air) class: Non hazardous
- RID/ADR class: Non hazardous
- ADNR class: Non hazardous

## 15. Regulatory Information

Not classified as hazardous for supply under UK CPL or CHIP Regulations.

## 16. Other Information

**Legal disclaimer:** The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.
